Construyendo una IA ética

En 2021, la UNESCO presentó la "Recomendación sobre la Ética de la Inteligencia Artificial", adoptada por 193 países. Hace hincapié en los derechos humanos, la transparencia y la equidad en la IA. Las pautas ayudan a abordar el impacto de la IA en datos, medio ambiente, igualdad de género, educación, investigación, atención médica y bienestar social. Esto forma parte de los esfuerzos de la UNESCO para promover la tecnología y la innovación al servicio de la humanidad.

Organizado por Eslovenia bajo el patrocinio de la UNESCO, el 2° Foro Global sobre la Ética de la Inteligencia Artificial se llevará a cabo en el Centro de Congresos Brdo de Kranj los días 5 y 6 de febrero de 2024.

2024. január 26.

Tisztelt Szülők!

A felvételi jelentkezési lapon rosszul szerepelt az Dunakeszi Radnóti Miklós Gimnázium postázási címe, mert a tagintézmény címét hozza fel a rendszer.

A helyes cím: 2120 Dunakeszi
